

SECOND LIFE PLASTICS

OUR
SACKS ARE
100%
RECYCLED

Every year **Berry bpi refuse**, through a network of our environmentally certified sites, recycles over 120,000 tonnes of post-consumer film from sources which include:

- Industrial
- Commercial
- Agricultural
- Horticultural
- Automotive
- Retail
- Distribution

By calling on our considerable expertise, extensive infrastructure and sustained investment into new technology and innovation, we are able to turn these materials into second life products that include the following sacks:

- Refuse
- Recycling
- Compactor
- Rubble
- Healthcare
- Local Authority

The perfect partner with closed loop credentials

Closed loop recycling schemes are a high profile way for retailers, distributors, manufacturers and many other organisations to demonstrate the strength of their commitment to the environment.

Berry bpi refuse can help give you peace of mind knowing your supply partner is part of the circular economy and can guarantee products made from 100% recycled plastic.

We take reclaimed plastic and supply recycled, second life products back to you for either your own use or for use by your customers.

THE GREEN SACK®

bpi
